AUTHOR Pugh, Elisabeth; Embry, Jonathan D.; Brandhorst, Wesley T.
TITLE Survey of ERIC Data Base Search Services. Issue Number Two.
INSTITUTION Educational Resources Information Center, DIR.
SPONS AGENCY National Inst. of Education (DHEW), Washington, D.C.
PUB DATE Jun 76
NOTE 46p.

EDRS PRICE MF-$0.83 HC-$2.06 Plus Postage.
DESCRIPTORS Computers; *Data Bases; *Directories; *Educational Research; Information Dissemination; *Information Retrieval; Information Seeking; *Information Services; Information Sources; Information Systems; National Surveys
IDENTIFIERS Computerized Searches; *Educational Resources Information Center; ERIC

ABSTRACT

This document lists and describes briefly the organizations which provide computerized searches of the Educational Resources Information Center (ERIC) data base. All sites providing search services on a regular basis are included. The survey of 212 entries is organized geographically and entries are grouped by state and city. Foreign entries appear at the end. For each entry information is provided on the organization, population served, files available, inquiry submission, search output, cost per search, turnaround time, search system used, miscellaneous notes, and the date the entry was prepared. (CH)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

SURVEY OF ERIC DATA BASE SEARCH SERVICES

2

June 1976 (issue #2)

Prepared by:

Elizabeth Pugh
Jonathan D. Embry
Wesley T. Brandhorst

EDUCATIONAL RESOURCES INFORMATION CENTER ● NATIONAL INSTITUTE OF EDUCATION, WASHINGTON, D.C. 20208

DISCLAIMER

Appearance in this Survey is not intended to constitute an endorsement by ERIC or NIE of any of the services provided. In most cases, ERIC has not been an actual customer of the service described and has developed the entry contained herein solely on the basis of documentation submitted by the service.

SURVEY OF ERIC DATA BASE SEARCH SERVICES

(Where to Obtain A Computerized Search Of The ERIC Files)

This document lists and describes briefly the organizations which are currently providing *computerized* searches of the ERIC data base. The intent is to include all sites providing search services on a regular basis—irrespective of whether the service is available only to a circumscribed community (e.g., state education department or university campus), or to all users without restriction.

Candidates for listing have come from various sources: subscribers to ERICTAPES, attendees at ERIC Data Base Conferences, users of one or more of the on-line services, those having continuing operating agreements with any of the major educational reference centers, and those appearing in prior directories of which we are aware.

All entries have been reviewed by the appropriate organizations for content and accuracy. However, recognizing that some organizations have undoubtedly been overlooked and that those listed will probably undergo change, it is intended that this survey be periodically updated and re-issued. (This is issue #2; the first issue was dated July 1974.) Additions, changes, or corrections to this survey are, therefore, welcomed; they should be submitted to:

User Services Coordinator
ERIC Processing and Reference Facility
4833 Rugby Avenue, Suite 303
Bethesda, Maryland 20014
Telephone: (301) 656-9723

The survey is organized geographically, i.e., entries are grouped by state, and within state by city. Foreign entries appear at the end. There are a total of 212 entries.

The columns subdividing each entry should be interpreted as follows:

ORGANIZATION

Contains the complete mailing address, telephone number, and person(s) to contact for further information. (See Table 1 for a list of organization acronyms.)

POPULATION SERVED

Indicates which groups that organization will serve. Organizations that do not restrict their clientele are identified by the notation "Open"; otherwise a qualifier identifying the specific population served is included (e.g., "Utah educational community"). Clientele groups are numbered roughly in order of the priority accorded them by the service.

FILES AVAILABLE

Indicates which ERIC files the organization has access to and how often they are updated. Selected major non-ERIC files that are accessible are also shown. However, all other data in this survey, such as costs and services provided, *apply only to searches of the ERIC files.* (In order to be consistent throughout the survey when referring to the various data bases, the acronyms shown in Table 2 have been used.)

For convenience and reasons of space, when a service organization provides searches by using one of the major on-line vendors, the files available have been referred to generically rather than specifically. e.g., "Battelle files", "Informatics files", "Lockheed files", "NLM files", "SDC files". Table 2 identifies many of the specific files offered by each vendor, but makes no claim to be complete in what is a rapidly changing situation.

INQUIRY SUBMISSION

Indicates how a request for a search should be submitted and the preferred format of such a request. The phrase "Natural language" is used to indicate that a simple narrative statement, describing specific subject areas and any other constraints, will suffice. Unless otherwise noted, specific ERIC Descriptors are not required. "Negotiation with requester preferred" indicates a process in which a staff member of the serving organization discusses the request with the requester prior to the actual running of the search, to insure understanding of the request and to resolve any ambiguities.

SEARCH OUTPUT

Indicates what the organization delivers back to the requester. *The term "Abstracts" is used here to mean complete bibliographic citations,* including cataloging, index terms, and abstract, i.e., the entire ERIC record or "resume." The term "Citations" is used to mean only bibliographic citations (i.e., all or part of the cataloging, but not the abstract). Generally, a citation includes accession number, title, author, publication date, Descriptors and Identifiers, price, availability, journal citation, and descriptive note; however,

the exact content of a citation may vary slightly from system to system. "Accession number" refers only to ERIC-assigned numbers, that is, ED-prefixed numbers for RIE, and EJ-prefixed numbers for CIJE. "References" is used as a generic term, synonymous with "Hits," that can refer to any unit outputs of a search, either Abstracts, Citations, or Accession numbers.

COST PER SEARCH

Indicates the cost to run one complete retrospective search of the ERIC files only. Costs for other services may occasionally be shown in the NOTES column.

TURNAROUND TIME

Indicates the typical elapsed time from when a request is submitted until it is returned to the requester. This varies considerably with the mode of distribution, particularly if material is mailed.

SEARCH SYSTEM USED

Identifies the name of the computer program used to process searches of the ERIC files. Generally, a notation is made if the service organization itself does not actually run the searches, but has them run by another organization. For details about the capabilities of particular search software, contact either the originator (shown in Table 3), or the ERIC Facility.

NOTES

Used for miscellaneous relevant information, including other services provided in addition to retrospective searches, such as Current Awareness (or Selective Dissemination of Information) services where the requester is notified on a regular basis of new material entered into the system that is relevant to his interests. Microfiche duplication and hard copy reproduction services are noted here when known.

DATE ENTRY PREPARED

Indicates when the data for that entry was last reviewed.

ON-LINE COMPUTER ACCESS TO ERIC

There are several organizations that maintain the ERIC data base, and appropriate retrieval software, on their own in-house computers, and support access by geographically dispersed external users through telephone lines and standard types of computer terminals. In addition to a terminal (which can be rented for about $100 to $200 per month), the user of one of these on-line vendors is directly responsible for developing the search strategy and interacting with the computer system. The host organization, by supplying the necessary computer, data base, programs, and communications equipment, provides the capability to search ERIC (as well as many similar data bases), but does not actually perform the search for the user. Vendor prices are generally based on computer connect time, that is, the time the terminal is actually connected to the computer, usually by some form of telephone line, with additional charges for off-line printouts based on their length.

The following vendors are currently providing on-line computer access to ERIC to users outside their own organization. Table 2 indicates some of the different files (in addition to ERIC) supported by the various services.

- **Lockheed Information Systems** operates the DIALOG program at a computer center in Palo Alto, California, providing access to some thirty five different bibliographic and numeric data bases. Charges to access ERIC are presently $25 per connect-hour, plus communications (telephone) and off-line printing charges. For further information contact:

  West Coast: Lockheed Information Retrieval Service
  3251 Hanover Street
  Palo Alto, California 94304
  Telephone: (415) 493-4411, Ext. 45412
  California residents only
  Toll Free: (800) 227-1960
  Contact: Roger Summit or
  Tom Crawford

  New York: Lockheed Information Retrieval Service
  200 Park Avenue, Suite 303E
  New York, New York 10017
  Telephone: (212) 682-4630
  Contact: Bob Donati

Washington: Lockheed Information Retrieval Service
900 17th Street, N.W.
Washington, D.C. 20006
Telephone: (202) 872-5971
Contact: Richard P. Caputo

- **System Development Corporation (SDC)** operates the ORBIT III program from a computer in Santa Monica, California, providing access to some twenty different data bases. Charges to access ERIC are presently $35 per connect hour, plus communications (telephone) and off-line printing charges. For further information, contact:

California: SDC Search Service
2500 Colorado Avenue
Santa Monica, California 90406
Telephone: (213) 829-7511, Ext. 7277
Contact: Martha Bonner or
Emily Skopp

New Jersey: SDC Search Service
401 Hackensack Avenue
Hackensack, New Jersey 07601
Telephone: (201) 487-0571
Contact: Bill Funderburk

Virginia: SDC Search Service
7929 Westpark Drive
McLean, Virginia 22101
Telephone: (703) 790-9850
Contact: Linda Rubens or
Sheryl Rosenthal

Canada: Infomart
One Yonge Street, Suite 806
Toronto, Ontario M5E 1E5
Telephone: (416) 366-3904
Contact: Georg R. Mauerhoff

- **SUNY/BCN** – The State University of New York, Biomedical Communication Network (SUNY/BCN), operates IBM's STAIRS retrieval program at SUNY's central computer center in Albany. Availability is on a membership basis and is limited to non-profit organizations. For further information, contact:

New York: SUNY/BCN
99 Washington Avenue
Albany, New York 12210
Telephone: (518) 474-1771
Contact: Joe Paulsen

- **WISE** – The University of Wisconsin at Madison, Academic Computing Center (MACC) operates a locally developed program entitled WISE (Wisconsin Information Services for Education). Charges are based on the computer resources used (CPU time, I/O's, lines printed, etc.). Availability is not limited to the state of Wisconsin, but there are no special provisions for long-distance communications. For further information, contact:

Wisconsin: University of Wisconsin
Madison Academic Computing Center (MACC)
1210 W. Dayton Street
Madison, Wisconsin 53705
Telephone: (608) 262-2054
Contact: Al Roberts

The other major on-line retrieval services offering access to bibliographic data bases, e.g., National Library of Medicine (using the ELHILL system), Informatics Incorporated (using the RECON system), and Battelle Memorial Institute (using the BASIS system), do not currently offer access to the ERIC files.
